Integration Model

Important Notes

1. **Info**: The <id> field in [erp_px_cat_g1v2] is only 5 characters, but they closely match the first 5 characters in <prd_key> in [crm_prd_info]. There is an assumption that these two tables can be related by adjusting the code.
2. **Warning**: As of this writing, <cid> in [erp_cust_az12] and <cst_id> in [crm_cust_info] shows zero matches between the two despite a similar pattern. This will need to be resolved in order to make a successful join/relationship.
